MONDAY EVENING, JUNE 16, 1902.

In Washington on Saturday while discussing the probable effect of the Thurber-Wood-Havemeyer disclosure in connection with Cuban reciprocity, Senator Eikins is reported to have said, "They need a plumber in the War Department to stop some of the leake." Senstor Elkins has had experience as Secre.ary of War, and knows how easily important informat on may be abstracted from the offio'al records under certain conditions. Without reflecting upon any individual or employe of the government, it is no idle faucy to state that exclusive informst on is sometimes "on sale" in the various branches of the government service. In recent years the practice has grown up by which employes of the government and persons occupying high positions in the public service declined to impatt any exclusive informstion for publication without being compenested, according to the rank of the official or the news market value of the material supplied. Cabinet officers, Supsture, Representatives, United S ates judges, army and pavy officers, and even subordinate officials, who few years ago were ready and anxious to impart information to the public on current topics, hesitate to be interviewed now without an "understanding" as to what the "consideration will be." The whole world now seems to be "on the make" and with most of the people there is a scramble not to get "left" in t iis ignoble race.

SENATOR ELKINS'S resolution for the admission of Cuba as a State would bays surprised no intelligent person a year or two hence, but its introduction in less than a month after this country with brass bands and cannon had deo'ared the island free is a specimen of the indecent baste of the present administration to accomplish what they purposed to do in 1898 when it then with brass bands and hypocritical oratory waged war against Spain for the declared purpose of knocking the shackles of that country from Cuba and making of it a free and independant country. The result shows that the United States has not been long in forging fetters of their own. President Palma is barely through receiving congratulations when the resolution for appexation is introduced and January 1, 1904, fixed as the time for the consummation. Palma will have about a year and a half to pose as president over the most patent house of cards ever erected by designing men. There is but one other instance of a such a days of the interoceanic canal struggle.

JUDGE TAFT in Rome on Saturday informed the Vatican authorities that if they preferred cash to Philippine bonds indorsed by the American Government for the lands owned by the friars in the Philippines, they could have the cash. The value of the lands is reckaned a from \$7 000 000 to \$10,000. 000, but millions appear as a bagetelle now where the Philippines are concerned. This country paid Spain \$20, 000,000 for the islands and has spent hundred of millions in endeavoring to subjugate the natives who pretested a rainst their lands and themselves being bought and sold, and now such little things as endorsing Philippine bonds or paying \$10,000,000 for lands seem to be of "no consequence" to those who are running this governmert.

THE FEATURE of the session of the House on Saturday was the attempt of Mr. Hay, of Virginia, to secure the adoption of a resolution calling upon the Secretary of War for information as to the cost of the war in the Philippines, but the resolution was laid on the table by a party vote. The republicans are quite reckless in their expenditures, but those for the Philippines war are so tremendous that from a party standpoint it would not do to make them public just now, on the eve of a congressional election. Then, too, the results of the war are not satisfactory.

AGAINST THE protect of the democrets and by a strict party vote, the Senate committee on territories on Saturday decided not to take up at this session the bill admitting the Territories of Oklahoma, New Mexico and Arizona as States into the union. The reason is obvious. It is by no means certain that if thes. Territories were admitted as States they would send republicans to the Senate, and as with many republicans to be a democrat is a crime they have no idea of making demogratic States.

IN THE House on Saturday nearly two hundred private pension bills were passed in a few minutes, thus breaking the record. When it it remembered that not one of these pensions could be tain effective administration if he is cranted under the present liberal obliged to depend upon the services of granted under the present liberal pension laws, it will be seen to what an extent this government is being are engaged that they are unable to forced to support private individuals refrain from public denunciation of the

whose records are even unworthy o purpose of the work, and public insult to the President."

Mr. Shallanberger caked (arthur consideration. Then, too, most of these pensions are granted to men who claim to have served in a war which ended to have a war whic nearly forty years ago.

THE ANTHEACITE : trike, for the five weeks it has lasted, hes cost \$30,000,000. and so far as known no one has been benefitted to the extent of one cent-This loss will probably never be made good and its ill-effects will be felt for months to come.

## FROM WASHINGTON.

Correspondence of the Alexandria Gasette.]

Washington, D. C., June 16. Senor Quesada was presented to President Roosevelt this morning as the first minister from Cuba to the United States The new minister made a suitable address on the occasion, referring to the part the United States has played in the bistory of Cuba dur-ing the past four years, to which the President responded. He cordially re-ceived Senor Quesada and assured him that he would omit no opportunity to off the Cuban coast in January, Secret-traw closer the ties of friendship be-tween the two countries. tween the two countries.

The Japanese multi-millionaire Baron

Schbusawa who is making a tour of the world was presented at the White House today. Minister Takahira in-troduced the Baron to President Roosevelt who received the party in

The President today sen the following nominations to the Senate. Cap-tain Charles E. Clark to be advanced seven numbers in rank and to be a Reir Admiral in the Navy. To be Crosul at Pretoria, South Africa, Joseph E. Prof-

of Wes Virginia. Cap'. Richmond P. Hobson made application to the Secretary of the Navy today for a 3 months' leave of absence in order to rest his eyes "from the glare of the summer sun." Capt. Hobson is engaged at Elizabethport, N. J., superintending the construction of submarine boats an assignment that is not at all to his liking.

There is no change in the Cuban reciprocity situation in the Senate. Despite the President's message on the subject, 18 best sugar republicans de-clare that they will stand out to the last against the administration's plan. Senator Nelson, who is one of the "in surgents," gives it as his opinion that either nothing will be done or the House bill will be adopted. Mr. Cul-lom, of the administration Senators, says he believes that if the best sugar men remain firm nothing will be done except to suthor ze the President to negotiate a reciprocity treaty with Cube

It is understood that President Palma of Cuba has communicated to President Rooseve t his convict on that ne rebits on Cubas sugar would not only be very of j ctionable in itself, but excessively expensive and that it would be almost impossible to carry out its

be almost impossible to carry out its di-t-ibut on.

Cuban reciprocity was again thresh dover at the White House this morning, the anti-administration Senators being largely represented. A number of the statesmen as orted after their talk with the President that the situation was unchanged. 'I do not believe that a single opponent of reciprocity has been shakes, said Mr. Myers, of Louisium. A significant feature of the day at the White Hone was the promise given by the President to Ser ator Feott that he would appoint J. E. Pr. ffet, of West Virginia, consul at Pretoria, South Africa. As Sunster Set tis one of the most uncompromising of the "insurgents," it will be believed by many that the appointment was given as a psice offering.

FIFTY-SEVENTH CONGRESS. Washington, D. C., June 16. SENATE.

The Sepate met this morning as hour earlier than customary. It will continue to do so during the next three The routine morning business con-

tion, introduced a resolution directing the Secretary of War to send to the Serate "a full item z detatement of all payments made out of Cuban funds to ny persons or corporations, if any, for the purpose of promoting 'reciprocity' between the United States and Cuba at any time during the military occupation Cuba by the United States, and whether such payments were or z-d or approved by the Secretary of War."

Upon objection by Mr. Kean, the resolution went over.

The London dock bill was then
